3.125 ( c )

FACILITIES, GENERAL.

§3.125 Facilities, general. (c) Storage. Supplies of food and bedding shall be stored in facilities which adequately protect such supplies against deterioration, molding, or contamination by vermin. Refrigeration shall be provided for supplies of perishable food.

\*\*\*\*\*

One freezer that the meat is stored has the plastic lining breaking on the lower front of the freezer. It is about 2" x 10' strip that has deteriorated. This area is not sanitizable or cleanable. Mold, etc. can build up in this area. This needs to be repaired or another freezer used to insure non contaminated food for the animals.

To be corrected by: March 1, 2005
